BOARD of REGENTS
STATE OF LOUISIANA

Alignment: Formula & Master Plan

The Master Plan goal is 60% of all working-age adults (ages 25-64) in Louisiana to hold a degree or high-value credential by 2030.

The challenge is to:

- 1) Expand access and success in completing Postsecondary education;
- 2) Eliminate persistent and damaging equity gaps;
- 3) Significantly increase the education level for all adults.

These challenges are the incentives for institutions to be rewarded in the model as the state works towards the attainment goal.

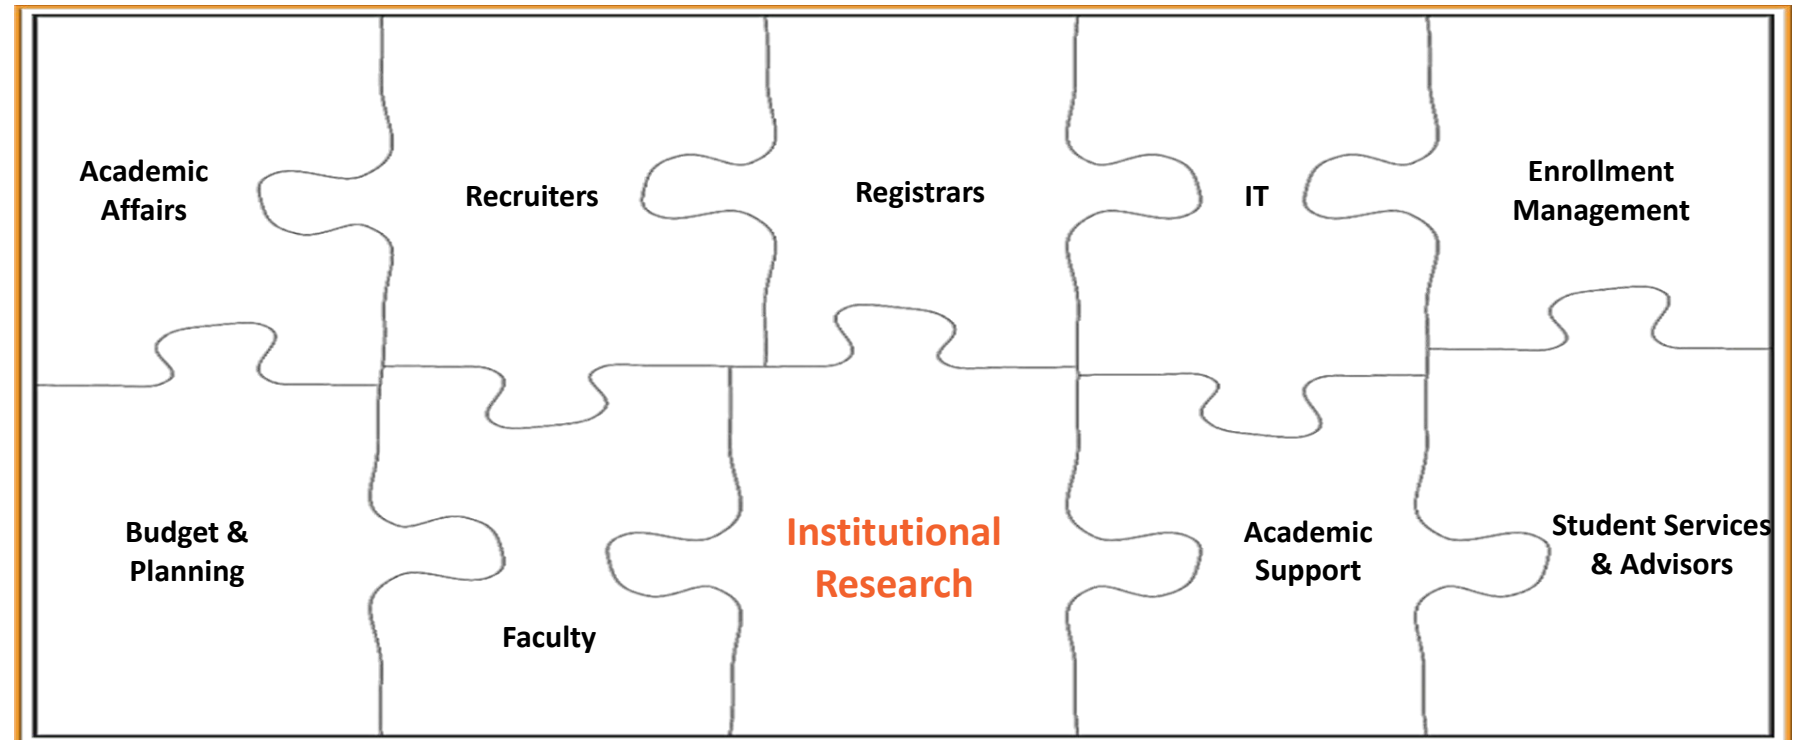

Institutional Success

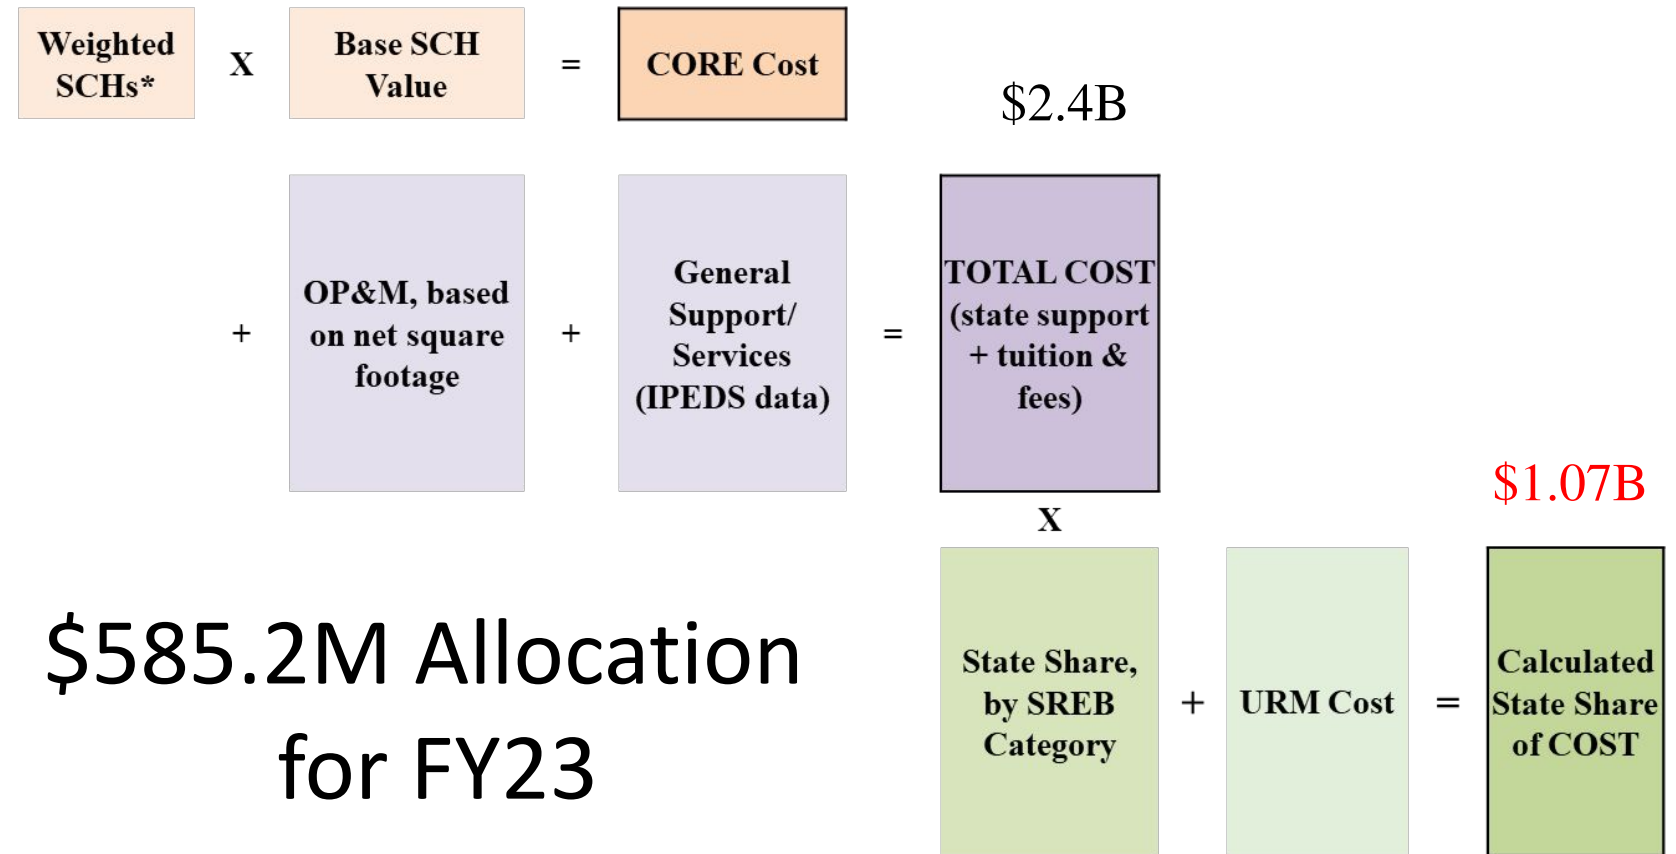

The funding approach considers, engages, and enables the entirety of the institution.

Understanding the model by all units helps achieve formula success.
